

ALASKA DRY COLD 2 DRAFTS - CO²

HOURLY FLOW (ΔT 15): 55 l/h

D3088NT

MADE IN FRANCE

Quick and easy to use after connection: without ice bank
 Beer quality comparable to professional establishments
 Practical: foldable drip tray
 Ecological: Propane R290
 Designed and manufactured in France by DAV equipments.

Ideal for your events: Plug in and serve immediately!
 Combining design, functionality and convenience, this mobile solution is easy to transport. Thanks to this dry cold solution (without water) accompanied by a bottle of CO², Alaska guarantees an easy and immediate use: 1 minute is enough before you can serve your drinks. Alaska cold dry CO² will be particularly suitable for events requiring 1 to 5 drums over a day. With its integrated pressure regulator and CO² hose, it guarantees a beer quality comparable to that of coffee shops, hotels and restaurants. Its two nozzles will allow you to offer your customers the choice of two different beers.

Technical Specifications
