Robust
Suitable for major events
Easytap tap: For an even faster and easier beer draught
Optimum beer service quality
Integrated expansion valve and drain valve
Designed and manufactured in France by DAV EQUIPMENTS

DAV EQUIPMENTS has been an expert in the development and manufacture of beverage cooling solutions for 60 years and offers you, through a proven process, a range of mobile furniture that ensures optimum beer service quality. We guarantee the freshness of your beers throughout your events: festivals, exhibitions, events, concerts, music festivals... The Nomad Easytap simple evaporator will ensure a flow rate on 2 nozzles of 223 l/h (ΔT 15). Thanks to its Easytap tap which is placed at the bottom of the cup, filling is immediate: no handle to handle, filling from the bottom of the cup prevents any excess foam. A real time saving at high flow rates. Ideal for inexperienced staff with little experience in beer brewing
