

ROLLER-STAND - DAV EQUIPMENTS

Beer up

D306534BU

MADE IN FRANCE

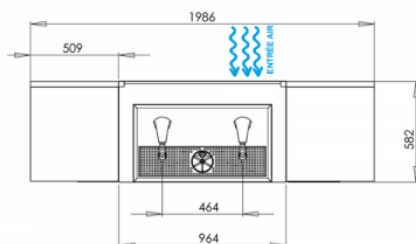

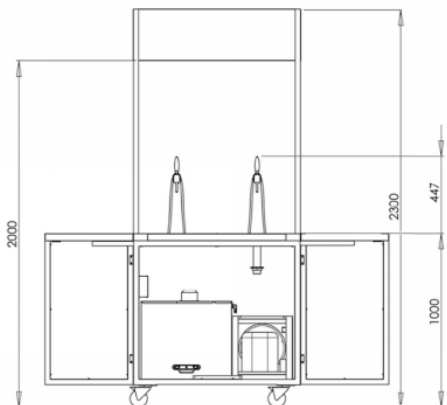

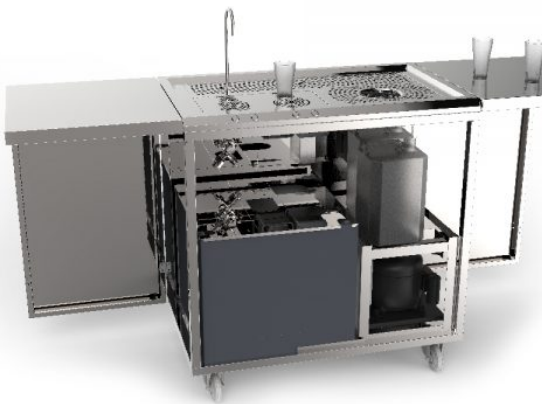

All stainless steel furniture
Transportable on wheels
Equipped with 2 folding stainless steel shelves.

Equipped with Beer-Up system:
Easy: Automatic or manual filling from below the cup
Equipped with a glass rinse and a draining grid.
Quick and easy service accessible to the uninitiated
Economic: Faster and more profitable
Ecological: Washable and reusable glasses (about 500 uses)

The Roller Stand Beer-Up is easy to handle thanks to its reinforced wheels. The two foldable stainless steel shelves provide a comfortable working space of 2 m. Combined with the innovative Beer-up system, the Roller Stand Beer-Up allows you to serve differently, without constraint.

No need to know how to draw beer: simply place the glass in the opening and the filler fills it up by itself, to the nearest centilitre. It thus ensures a gain in speed and therefore a much higher yield. A classic service is also possible thanks to a removable spout, recommended for the beginning and end of the barrel. The drip tray is also integrated. The cups can be easily rinsed and refreshed thanks to the integrated self-contained glass rinser. The Roller Stand Beer-Up is designed for intensive use. Equipped with a volumetric counter, it will allow you to count the actual litering of your event.

It is supplied with 2 cup grids: 1 grid of 2 x 25 cl and 2 x 50 cl cups and 100 x 25 cl cups. The cups are washable in dishwashers and glass washers.

Technical Specifications

NUMBER OF MAX. DRAFTS	2T
HOURLY FLOW (ΔT 15) L/H	295
COMPRESSOR POWER (HP)	3/4
WEIGHT (KG)	165
TANK CAPACITY (L)	85
WEIGHT OF THE ICE BANK (KG)	40
MEASUREMENT DIMENSIONS (MM)	L.1989 x d.582 x h.1000
THERMOSTAT (TEMPÉRATURE DE LA RÉSERVE FROID)	mechanical
MAX LENGTH OF SERPENTINES (M)	2x30
REFRIGERANT FLUID	R134A
EVAPORATOR	copper
