

FRIONOR solid ice machine

R4031

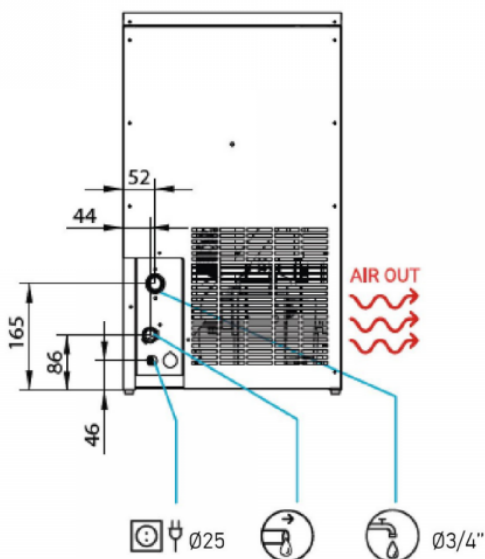

Small footprint
Low water consumption
Flexible nozzles to prevent rapid limescale formation
Attractiveness and price

This professional ice maker has been designed for the hotel and restaurant sector. Its small size is its undeniable advantage while guaranteeing a high production capacity: 22kg / 24h.

Its flexible nozzles prevent the formation of fast limescale, guaranteeing translucent ice cubes for optimal service. Depending on the hardness of the water, we recommend an anti-limestone filter upstream to prolong the durability of the machine.

VUE DE DERRIERE

Technical Specifications

TYPE OF INSTALLATION	BUILT-IN
MEASUREMENT DIMENSIONS (MM)	
TYPE DE GLAÇONS	
ADJUSTABLE FEET	
BODYWORK	stainless steel
PRODUCTION NB/ICE CUBES PER CYCLE	18/ cycle
PROD. CAPACITY IN 24H (KG)	
STORAGE CAPACITY (KG)	6
COOLING	AIR
ICE PRODUCTION SYSTEM	Injection system
WATER CONSUMPTION (APPROX)	
ROOM TEMPERATURE (°C)	
WATER TEMPERATURE (C°)	
POWER SUPPLY	230 V – 50Hz
CONSUMPTION (WH)	
GROUNDED OUTLET	Mandatory
REFRIGERANT FLUID	R290
WEIGHT (KG)
